With the expansion of Christianity into the Hellenistic world either to Jews or increasingly to Gentiles, there were various reasons why the Christian message that spread, for example by Paul, met the needs of the Hellenistic Age and world.

The religious situation in the Greco-Roman world of the ...

The Greco-Roman World Judaism gave birth to Christianity in a Greco-Roman world where Christianity's Jewish roots merged with the Roman imperial culture and Greek philosophical ideas to mold Christianity into the institution it became in the early Church and through the Middle-Ages.

The Greco-Roman World | History of Christian Theology

Christians, and scholars of the most recent eras have interpreted Christianity's interactions with the Greco-Roman pagan culture and the merging Judaism of the first, second and third centuries from the position of the winner of the struggles. Christianity has traditionally distanced itself from the practitioners of paganism and Judaism.

Greco-Roman Religious Landscape - Birthing of Christianity

Roman investigations into early Christianity found it an irreligious, novel, disobedient, even atheistic sub-sect of Judaism: it appeared to deny all forms of religion and was therefore superstitio. By the end of the Imperial era, Nicene Christianity was the one permitted Roman religio ; all other cults were heretical or pagan superstitiones .

Christianity in the Greco-Roman World: A Narrative ...

Slavery in the Greco-Roman World Value and Source of Slaves. Seneca tells of a story of a wealthy Roman named Vedius Pollio who feed disobedient slaves to his lamprey eels he kept in a fishpond on his property (Seneca, De Ira 3.40). This seems outlandish, but then there is another story concerning Vedius and Augustus.

Multiple choice questions for New Testament

Background becomes foreground in Moyer Hubbard's creative introduction to the social and historical setting for the letters of the Apostle Paul to churches in Asia Minor and Europe. Hubbard begins each major section with a brief narrative featuring a fictional character in one of the great cities of that era. Then he elaborates on various aspects of the cultural setting related to each particular vignette, discussing the implications of those venues for understanding Paul's letters and applying their message to our lives today. Addressing a wide array of cultural and traditional issues, Hubbard discusses: • religion and superstition • education, philosophy, and oratory • urban society • households and family life in the Greco-Roman world This work is based on the premise that the better one understands the historical and social context in which the New Testament (and Paul's letters) was written, the better one will understand the writings of the New Testament themselves. Passages become clearer, metaphors deciphered, and images sharpened. Teachers, students, and laypeople alike will appreciate Hubbard's unique, illuminating, and well-researched approach to the world of the early church.

Understanding the sociological setting for New testament in Asia Minor and Europe-the Greco Roman World-is essential for correctly interpreting the letter of Paul. Hubbard address the realms of religion and superstition, of education and philosophy, of the urban society, and of the family. Each major section begins with a brief fictional tale, followed by description of the cultural setting related to that vignette, and culminating in drawing out the implications of the cultural setting for understanding Paul's letters written to that World. Book jacket.

The question of Christianity's relation to the other religions of the world is more pertinent and difficult today than ever before. While Christianity's historical failure to appreciate or actively engage Judaism is notorious, Christianity's even more shoddy record with respect to "pagan" religions is less understood. Christians have inherited a virtually unanimous theological tradition that thinks of paganism in terms of demonic possession, and of Christian missions as a rescue operation that saves pagans from inherently evil practices. In undertaking this fresh inquiry into early Christianity and Greco-Roman paganism, Luke Timothy Johnson begins with a broad definition of religion as a way of life organized around convictions and experiences concerning ultimate power. In the tradition of William James's Variety of Religious Experience, he identifies four distinct ways of being religious: religion as participation in benefits, as moral transformation, as transcending the world, and as stabilizing the world. Using these criteria as the basis for his exploration of Christianity and paganism, Johnson finds multiple points of similarity in religious sensibility. Christianity's failure to adequately come to grips with its first pagan neighbors, Johnson asserts, inhibits any effort to engage positively with adherents of various world religions. This thoughtful and passionate study should help break down the walls between Christianity and other religious traditions.

In "Christian Origins and Greco-Roman Culture," Stanley Porter and Andrew Pitts assemble an international team of scholars whose work has focused on reconstructing the social matrix for earliest Christianity through the use of Greco-Roman materials and literary forms. Each essay moves forward the current understanding of how primitive Christianity situated itself in relation to evolving Hellenistic culture. Some essays focus on configuring the social context for the origins of the Jesus movement and beyond, while others assess the literary relation between early Christian and Greco-Roman texts.

In Christian Origins and Hellenistic Judaism, Stanley E. Porter and Andrew W. Pitts assemble an international team of scholars whose work has focused on reconstructing the social matrix for earliest Christianity through reference to Hellenistic Judaism and its literary forms.

Judith Lieu's study explores how a sense of being a Christian was shaped within the setting of the Jewish and Graeco-Roman world. By exploring this theme she reveals what made early Christianity so distinctive and separate.

Greco-Roman religions and superstitions, and early Christianity's engagement with them, are explored in 12 unique studies. The beliefs and fears with regard to demons (or daimons), their origins, and threatening behavior are examined, both in their pagan and Judaeo-Christian contexts. These new studies look at the Greco-Roman heroic gods, how they faced death, and how James and John, the "sons of Thunder," may well have been viewed in some circles as the equivalent of the "sons of Zeus", Castor and Pollux. The contributors also explore Roman omens, especially as they relate to Rome's legendary founder Romulus and what light they shed on the omens that accompany the birth and death of Jesus of Nazareth. Particular focus is placed upon Paul, binding spells, women and hymns of exaltation, along with atheism in late antiquity, with special consideration of the charlatan Alexander. Finally, there is a re-visitation of the confusion, misinformation and legends surrounding the discovery of the Qumran caves, including fear of jinn. This book provides invaluable resources for precisely how early Christians interacted with different ideas and traditions around gods and spirits - both benevolent and malevolent - in the Greco-Roman world.

This is a substantially expanded and completely revised edition of a book originally published in 1988 as Maenads, Martyrs, Matrons, Monastics. The book is a collection of translations of primary texts relevant to women's religion in Western antiquity, from the fourth century BCE to the fifth century CE. The selections are taken from the plethora of ancient religions, including Judaism and Christianity, and are translated from the six major languages of the Greco-Roman world: Greek, Latin, Aramaic, Hebrew, Syriac, and Coptic. The texts are grouped thematically in six sections: Observances, Rituals, and Festivals; Researching Real Women: Documents to, from and by Women; Religious Office; New Religious Affiliation and Conversion; Holy, Pious, and Exemplary Women; and The Feminine Divine. Women's Religions in the Greco-Roman World provides a unique and invaluable resource for scholars of classical antiquity, early Christianity and Judaism, and women's religion more generally.
