Researchers found salt
intake was associated with
cardiovascular disease and
strokes, but only in
communities where
consumption was in excess of
12.5g a day.

Is it time to shake up the
rules on salt? Experts argue
it's not as bad for health
as you think

It can even influence
whether a person likes the
taste of food based ... They
also show that some of the
genetic variation that
people do carry makes them
