A diagnosis of autism spectrum disorder (ASD) can be startling news for any parent. Professional homeopath Pierre Fontaine CCH provides hope for a permanent-and natural-solution. Disputing that most ASD is not reversible, Fontaine empowers parents with the knowledge needed to seek alternative care. Through explanations of both ASD and homeopathy, he presents cases from his own practice that demonstrate how autism can be reversed when paired together. Fontaine outlines how he looks into both the child's history and the parents' experience of their child in order to go beyond simply treating the symptoms of the disorder. He ultimately seeks to find what is at the core of the child's suffering-and how parents can help. One Heart, One Mind gives families, as well as health professionals, a fresh look at how practical solutions to autism can be discovered in a book that offers exactly what parents are seeking: Hope.

A best-selling introduction to homeopathy for the general public that is also used as a first-year text in many homeopathic schools, **Impossible Cure: The Promise of Homeopathy** provides an in-depth and exciting account of the history, philosophy, and experience of homeopathic medicine. At the core of **Impossible Cure** is the amazing story of how the author's son was cured of autism with homeopathy. It also includes dozens of other testimonials of homeopathic cure, for a variety of physical, mental, and emotional conditions. **Impossible Cure** will serve as an invaluable guide to anyone interested in learning more about this intriguing form of health care. It has won endorsements from leading experts in alternative health care, including: Larry Dossey, MD (executive editor, *Alternative Therapies in Health and Medicine*, and author of *Healing Words*); Bernard Rimland, PhD (director, Autism Research Institute); Wayne Jonas, MD (director, Samueli Institute, and former director, Office of Alternative Medicine, NIH); Michael Castleman (author of *The New Healing Herbs* and other consumer health books); Louis Klein, RSHom (president, Luminos Homeopathic Courses); and Richard Pitt, CCH, RSHom(NA) (director, Pacific Academy of Homeopathy). About the author: Amy Lansky received her doctorate in computer science from Stanford University in 1983. After many years working at various Silicon Valley research institutions, she made an unusual career move -- she became a student, writer, and promoter of homeopathic medicine. This was prompted by the miraculous cure of her son's autism with homeopathy. She serves on the board of the National Center for Homeopathy and has been active in the national health freedom movement. She is dedicated to helping others -- especially families with autistic children -- discover the curative powers of homeopathy.

Callous Disregard is the account of how a doctor confronted first a disease and then the medical system that sought and still seeks to deny that disease, leaving millions of children to suffer and a world at risk. In 1995, Dr. Andrew Wakefield came to a fork in the road. As an academic gastroenterologist at the Royal Free School of Medicine and the University of London, he was confronted by a professional challenge and a moral choice. Previously healthy children were, according to their parents, regressing into autism and developing intestinal problems. Many parents blamed the MMR vaccine. Trusting his medical training, the parental narrative, and, above all, the instinct of mothers for their children's well-being, he chose what would become a very difficult road. Dr. Wakefield provides the facts and an explanation of the problem that confronted him and his colleagues fifteen years ago. He does this in a detailed forensic analysis of the lies, obfuscation, cover-up, and dystopian science and medicine that panders to commercial interests at the expense of your children.

This practical, accessible text introduces preservice SLPs to 12 evidence-based interventions that improve the communication and social skills of people with autism spectrum disorders. Enhanced with video clips, case studies, and learning activities.

"The most common personality types recognized by homeopathic practitioners are brought to life in this new book by an insightful physician and homeopath. These thirty-five typologies are described in light of common behaviors, primary emotional tendencies, internal conflicts, and spiritual issues that each of them face. This book is essential for serious students and practitioners of homeopathic medicine, and it will be of use as well to homeopathic patients or anyone interested in typology research." "Understanding these archetypal personalities enables us to better know ourselves, our family, and the people with whom we interact day-to-day." -BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
