## ~~Linear Tape File System - Quantum~~

LTFS is a selfdescribing capability for tape drives that - is enabled by partitioning. The tape partitioning allows an XML index to be stored on a small partition for fast access and ease of update and the second partition to contain data files. LTFS is supported on LT05 and LT06 tape drives only. See figure 1 below for the partition structure.

## ~~Linear Tape File System Single Drive Edition Best Practices~~

LTFS EE supports IBM Linear Tape-Open (LTO) Ultrium 6 and 5 tape drives, and IBM System Storage TS1140 Tape Drives that are installed in TS3500 tape libraries. LTFS EE can play a major role in reducing the cost of storage for data that does not need the access performance of primary disk. The use of LTFS EE to replace disks with tape in Tier 2 and Tier 3 storage can improve data access over ...

## ~~IBM Linear Tape File System Enterprise Edition V1.1 ...~~

The IBM LTFS log indicates this error: "Drive firmware must be updated. Upgrading to HB81 or later is recommended." So my theory is that the IBM software doesn't recognize the Dell firmware version, so it won't recognize the drive. The only two solutions I can think of are: 1. IBM updates their LTFS software to recognize the Dell tape drive firmware as compatible 2. Dell creates a firmware ...
