reality' is here and
it is here to stay.

The 'new normal' is
a reality with a mix
of home, mobile,
and classic office
environment. We
run a software and
consulting house
serving clients
around the world
and when the
pandemic hit in
2020, we had to

Online Library Installation

adjust quickly. In the beginning uncertainty about future was strong, and we had to change the way how we do business. Our consulting teams changed from 41% remote consulting to 98% remote consulting. And did not lose one client.

Online Library Installation

On the software side, we have been lucky as our solution improves data collaboration in remote settings, we benefited winning new partners and clients. Based on our own experience, many conversations within the team

Online Library Installation

(yes, we also had to home school), with clients, partners and by an active sounding of the market we decided to put this book together. What this book is not is a scientific review of work behavior and a description of productivity losses

Online Library Installation

and gains. The book was planned as the ultimate practical guide to navigate the Modern Workplace. The three chapters structure the book in a first part where we gather some facts and figures on the quick changes caused by the pandemic. In the

Online Library Installation

Second chapter we give helpful tips and advice on how to work remotely and finally we gathered ideas how to lead yourself and others within the 'new reality'. We hope you enjoy the reading.
