The IMCI chart booklet is for use by doctors, nurses and other health professionals who see young infants and children less than five years old. It facilitates the use of the IMCI case management process in practice and describes a series of all the case management steps in a form of IMCI charts. These charts show the sequence of steps and provide information for performing them.

The Integrated Case Management Manual: Valued-Based Assistance to Complex Medical and Behavioral Health Patients, 2nd Edition emphasizes the field has now moved from "complexity assessments" to "outcome achievement" for individuals/patients with health complexity. It also stresses that the next steps in VB-ICM must be to implement a standardized process, which documents, analyzes, and reports the impact of VB-ICM services in removing patient barriers
