The Mesoamerican population who lived near the indigenous cultivation sites of the "Chocolate Tree" (*Theobroma cacao*) had a multitude of documented applications of chocolate as medicine, ranging from alleviating fatigue to preventing heart ailments to treating snakebite. Until recently, these applications have received little sound scientific scrutiny. Rather, it has been the reputed health claims stemming from Europe and the United States which have attracted considerable biomedical attention. This book, for the first time, describes the centuries-long quest to uncover chocolate's potential health benefits. The authors explore variations in the types of evidence used to support chocolate's use as medicine as well as note the ongoing tension over categorizing chocolate as food or medicine, and more recently, as functional food or nutraceutical. The authors, Wilson an historian of science and medicine, and Hurst an analytical chemist in the chocolate industry, bring their collective insights to bear upon the development of ideas and practices surrounding the use of chocolate as medicine. Chocolate's use in this manner is explored first among the Mesoamerican peoples, then as it is transported to Europe, and back into Colonial North America. The authors then focus upon more recent bioscience experimental undertakings which have been aimed to ascertain both long-standing and novel suggestions as to chocolate's efficacy as a medicinal and a nutritional substance. Chocolate/s reputation as the most craved food boosts this book's appeal to food and biomedical scientists, cacao researchers, ethnobotanists, historians, folklorists, and healers of all types as well as to the general reading audience.

La vita continua ad aspettarci è il commovente racconto di una madre che spalanca alla figlia le porte dell'anima per farle conoscere i suoi vecchi sogni, le delusioni provate e ogni parvenza di rivincita che la vita le aveva riservato con ironica freddezza. La narrazione tende ad esplorare l'infanzia della protagonista cresciuta in un circo equestre, circondata dalla grande famiglia allargata degli artisti, in compagnia di Henry, il suo inseparabile amico scimpanzè. Il suo sogno era di

diventare una trapezista ed esibirsi insieme alla madre sotto quel tendone a strisce gialle e blu. Ma il suo più grande desiderio era quello di conoscere il suo vero padre, desiderato, immaginato e sognato. Con impietosa commozione racconta l'angoscia provata quando si è dovuta staccare dal suo circo, dal suo mondo, da sua madre. La vita le offriva il padre desiderato e la realtà le portava via tutti i sogni e tutte le promesse che avevano riempito con la speranza il vuoto abissale del suo animo di bambina.
