MCSA Certification Training in Online Self-Paced Training
In April 2020, however, Microsoft announced the retirement of all MCSA, MCSE, and MCSD certifications. The original retirement date was supposed to be June 2020, but Microsoft changed the date due to the COVID-19 pandemic. The MCSA, MCSE, and MCSD will now retire in January 2021. What is Replacing MCSA? Microsoft didn't necessarily replace MCSA.

Learn how to install, configure, and administer SQL Server 2000-as you prepare for MCP Exam 70-228, a core requirement for MCDBA certification and an elective for the MCSE and MCSA tracks.

This exam is designed to validate Windows Server 2008 applications platform configuration skills. This exam will fulfill the Windows Server 2008 Technology Specialist requirements of Exam 70-643. The Microsoft Certified Technology Specialist (MCTS) on Windows Server 2008 credential is intended for information technology (IT) professionals who work in the complex computing environment of medium to large companies. The MCTS candidate should have at least one year of experience implementing and administering a network operating system in an environment that has the following characteristics: 250 to 5,000 or more users; three or more physical locations; and three or more domain controllers. MCTS candidates will manage network services and resources such as messaging, a database, file and print, a proxy server, a firewall, the Internet, an intranet, remote access, and client computer management. In addition MCTS candidates must understand connectivity requirements such as connecting branch offices and individual users in remote locations to the corporate network and connecting corporate networks to the Internet. Addresses both newcomers to MS certification, and those who are upgrading from Windows 2003 Two full-function ExamDay practice exams guarantee double coverage of all exam objectives Free download of audio FastTrack for use with iPods or other MP3 players THE independent source of exam-day tips, techniques, and warnings not available from Microsoft Comprehensive study guide guarantees 100% coverage of all Microsoft's exam objectives Interactive FastTrack e-learning modules help simplify difficult exam topics

Ace your preparation for the skills measured by MCP Exam 70-284—and on the job—with this official Microsoft study guide. Work at your own pace through a system of lessons, hands-on exercises, troubleshooting labs, and review questions. The Readiness Review Suite on CD, featuring advanced technology from MeasureUp, provides 300 challenging questions for in-depth self-assessment and practice. You can choose timed or untimed testing mode, generate random tests, or focus on specific objectives. You get detailed explanations for right and wrong answers—including a customized learning path that describes how and where to focus your studies. Maximize your performance on the exam by learning how to: Plan, install, and configure an Exchange Server 2003 infrastructure Migrate from Exchange Server 5.5 and other messaging systems Implement encryption, virus protection, and other security services Manage recipient objects and address lists Monitor and troubleshoot servers, clusters, data storage, and connectivity Troubleshoot Active Directory operations and other supporting technologies Readiness Review Suite on CD Powered by MeasureUp Your kit includes: NEW—Fully reengineered self-paced study guide with expert exam tips. NEW—Readiness Review Suite featuring 300 questions and multiple testing options. NEW—Case scenarios and troubleshooting labs for real-world expertise.
