Military Mental Health Care A

Most British military personnel do not experience mental health problems while they are in service, or afterwards in civilian life. However they face unique risks in service and, if they do experience mental health problems, they may require particular treatments and particular mental health services. The mental health problems experienced by military personnel are the same as the general population, although experiences during service and the transition to civilian life mean that their ...

Armed forces and mental health | Mental Health Foundation

Military Mental Health Care is a good place to start for those interested in mental health problems relevant to the military (e.g., post-traumatic stress).
