I had purchased my Minolta Autocord CDS cameras about three months ago. The previous owner didn ' t know if it was working, even after giving them some tips to check. However, I took a chance and bought it. To my surprise, when it arrived, the shutter worked great, and the aperture moved as it should.

Minolta Autocord CDS - History & Review - By Dan Cuny - 35mmc

The last new model was the Autocord Cds Model III from 1966 and it remained in production for a couple of more years before the entire Autocord line was discontinued due to failing sales. The rise of professional 35mm cameras and 6 x 6 SLR cameras like those made by Hasselblad and Mamiya rendered the TLR design obsolete.

Minolta Autocord (1958) - mike eckman dot com

The Minolta Autocord series was an effort by Chiyoda Kogaku Seiko, K.K. to compete in the premium-quality segment of the TLR market. The Autocord series went through a large number of minor variations during its lifespan between 1955 and 1966—at least 17, by one count.
