The royalties from Monopoly made Charles Darrow a millionaire, the first game inventor ever to earn that much money. A few years after Darrow's death in 1970, Atlantic City erected a commemorative plaque in his honor. It stands on the Boardwalk near the corner of Park Place. Lizzie Magie's Landlord Game

This biography introduces readers to William McKinley including his early political career and key events from McKinley's administration including the Spanish-American War, the expansion of US territory to include the Hawaiian Islands, and his assassination by Leon F. Czolgosz. Information about his childhood, family, and personal life is included. A timeline, fast facts, and sidebars provide additional information. Aligned to Common Core Standards and correlated to state standards. Checkerboard Library is an imprint of Abdo Publishing, a division of ABDO.

In this engaging biography, readers will learn about the inventor of Hot Wheels, Elliot Handler. Follow the story of Handler as he starts the Mattel toy company, begins making toys from plastic, develops the Barbie and Ken dolls with his wife Ruth, then invents Hot Wheels! Sidebars, historic photos, and a glossary enhance readers' understanding of this topic. Additional features include a table of contents, an index, a timeline and fun facts. Aligned to Common Core Standards and correlated to state standards. Checkerboard Library is an imprint of Abdo Publishing, a division of ABDO.

When Ellen Ochoa was young, male American astronauts walked on the moon. But girls were not allowed to be astronauts. Girls didn't often study science either—but Ochoa didn't let that stop her. In high school, Ochoa loved math and science. In college, she studied physics and engineering, and later she became a scientist and inventor. Eventually NASA began accepting women into their astronaut training program. While there, Ochoa developed technology, became the first female Hispanic American astronaut, and logged 1,000 hours in outer space. Learn about Ochoa's hard work and perseverance on her journey toward becoming a scientist, inventor, and astronaut.

In this engaging biography, readers will learn about the inventor of Nerf, Reyn Guyer. Follow the story of Guyer from his early collaboration inventing the game Twister, to the Nerf indoor ball, Nerf Football, and Nerf Blaster. Sidebars, historic photos, and a glossary enhance readers' understanding of this topic. Additional features include a table of contents, an index, a timeline and fun facts. Aligned to Common Core Standards and correlated to state standards. Checkerboard Library is an imprint of Abdo Publishing, a division of ABDO.

Offers readers an inside look into the life of Dolley Madison and how she influenced the nation as First Lady. Learn all about how she helped her husband win the presidency and the impact she had on the early nation. Additional features include a Fast Facts spread, critical thinking

Readers learn about Kardashian West's early life, her beginnings in television with Keeping Up with the Kardashians, her book of selfies Selfish, her development of the KIMOJI app, and KKW Beauty. Features include a timeline, glossary, fun facts, online resources, and an index. Aligned to Common Core Standards and correlated to state standards. Checkerboard Library is an imprint of Abdo Publishing, a division of ABDO.

An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In Rules of Play Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written Rules of Play as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like "play," "design," and "interactivity." They look at games through a series of eighteen "game design schemas," or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, Rules of Play is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.
