LAB MANUAL for Computer Network - MGM's JNEC

Network is a small group of computers that share information, or they can be very complex, spanning large geographical areas that provide its users with unique capabilities, above and beyond

Bookmark File

PDF Network

what the individual machines and their software

applications can provide. The goal of any computer network is to allow multiple computers to communicate.

Introducing Basic Network Concepts

So, what is a

Bookmark File

PDF Network

Computer network
exactly? A

computer network is a group of computers, two or more, connected to each other through a wire or a cable or even wireless. You can share files with other computers this way easily. If the network is large enough and lets you

Bookmark File

PDF Network

access a large number of computers, it becomes even more useful.
