Graphic novels are more popular than ever thanks to popular culture and the amount of exposure they get. This new Graphic Stories series from Usborne provide a great gateway to potentially difficult stories for young readers to learn to enjoy. Specifically designed to be readable by children aged 7 +, with vocabulary and sentence structures that match their ability, these stories are entertaining, and the fun, action-packed illustrations are a great way to initiate reluctant readers, in particular boys, to the pleasure of sitting down and reading a book, plunging into an imaginary universe and be taken away by a story. The stories are classics of Western culture that children should be familiar with. The first two in the series, Robin Hood and King Arthur, will be followed by Dracula, Dr Jekyll and Mr Hyde, and other retellings of classic literature with eye-catching illustrations and vibrant dialogue. Also a great addition to libraries' catalogues.

Science loving Adam "Einstein" Anderson is back - and more contemporary than ever! Einstein and his best friend Paloma try to stump each other and foil the ever-scheming Stanley as they solve science mysteries. Not only have the characters, stories, dialog and devices been updated, every story now includes a fun science experiment for readers to try. Great stories and hands-on science!

Robyn quickly finds out that life in the city isn't exactly how it seems when she is targeted by a mysterious, ancient order known as the Cabal.
