To create a responsive website, add the following

<meta> tag to all your web pages: Example.

```
<meta  
name="viewport" cont  
ent="width=device-  
width, initial-  
scale=1.0">. Try it  
Yourself ». This will  
set the viewport of
```

W3Schools

Responsive web design (RWD) is an approach to web design that makes web pages render well on a variety of devices and window or screen sizes.

Recent work also considers the viewer proximity as part of the viewing context as an extension for

Download File PDF

RWD. Content, design and performance are necessary across all devices to ensure usability and satisfaction.

Responsive web design - Wikipedia

Responsive web design gives web creators some tools for making layouts

Download File PDF

that respond to any screen size. This article uses fluid grids, flexible images and media queries to get the layout looking great regardless of the size of the device's screen dimensions.
