Washington, DC, stands at the epicenter of world espionage. Mapping this history from the halls of government to tranquil suburban neighborhoods reveals scores of dead drops, covert meeting places, and secret facilities—a constellation of clandestine sites unknown to even the most avid history buffs. Until now. *Spy Sites of Washington, DC* traces more than two centuries of secret history from the Mount Vernon study of spymaster George Washington to the Cleveland Park apartment of the "Queen of Cuba." In 220 main entries as well as listings for dozens more spy sites, intelligence historians Robert Wallace and H. Keith Melton weave incredible true stories of derring-do and double-crosses that put even the best spy fiction to shame. Maps and more than three hundred photos allow readers to follow in the winding footsteps of moles and sleuths, trace the covert operations that influenced wars hot and cold, and understand the tradecraft traitors and spies alike used in the do-or-die chess games that have changed the course of history. Informing and entertaining, *Spy Sites of Washington, DC* is the comprehensive guidebook to the shadow history of our nation's capital.

This one-of-a-kind guidebook lifts the cloak on over two centuries of espionage in the Washington region. Robert Wallace and H. Keith Melton tell the stories and give coordinates for the headline-making cases and long-forgotten spy games that have changed the course of world affairs. With 220 main entries as well as listings for dozens more spy sites, maps and more than 300 photos this guide makes it easy for anyone to follow in the elusive footsteps of the moles, traitors, sleuths, and spies who lived the shadow history of our nation's capital.

Throughout its history, Philadelphia has been home to international intrigue and some of America's most celebrated spies. This illustrated guidebook reveals the places and people of Philadelphia's hidden history, inviting the reader to explore over 150 spy sites in Philadelphia and its neighboring towns and counties.

Offers a guided tour through Washington, D. C. and nearby Virginia and Maryland leads to more than seventy dropsites, safehouses, graveyards, mansions, museums, secure government offices, and restaurant rendezvous where the spy game has been played, from George Washington through today's war on terrorism.

Through every era of American history, New York City has been a battleground for international espionage, where secrets are created, stolen, and passed through clandestine meetings and covert communications. Some spies do their work and escape, while others are compromised, imprisoned, and--a few--executed. Spy Sites of New York City takes you inside this shadowy world and reveals the places where it all happened. In 233 main entries as well as listings for scores more spy sites, H. Keith Melton and Robert Wallace weave incredible true stories of derring-do and double-crosses that put even the best spy fiction to shame. The cases and sites follow espionage history from the Revolutionary War and Civil War, to the rise of communism and fascism in the twentieth century, to Russian sleeper agents in the twenty-first century. The spy sites are not only in Manhattan, Brooklyn, Queens, and the Bronx but also on Long Island and in New Jersey. Maps and 380 photographs allow readers to follow in the footsteps of spies and spy-hunters to explore the city, tradecraft, and operations that influenced wars hot and cold. Informing and entertaining, Spy Sites of New York City is a must-have guidebook to the espionage history of the Big Apple.

An insider's tour of the past half-century's espionage technologies also recounts some of the CIA's most secretive operations and how they have been performed using state-of-the-art spy instruments.

Throughout its history, Philadelphia has been home to international intrigue and some of America's most celebrated spies. This illustrated guidebook reveals the places and people of Philadelphia's hidden history, inviting the reader to explore over 150 spy sites in Philadelphia and its neighboring towns and counties.

From Indigenous quarries through superpower competition to conspiracy theories like #pizzagate, Washington DC's Tenleytown has offered a microcosm of the nation's history. Mozart's connection with Masonry and a young Lutheran's flight from Latin school setting him on a path to becoming a Revolutionary War hero figure into the neighborhood that gave a home to both Henry Kissinger and Kermit the Frog. Oliver Wendell Holmes and Charles Dickens wrote about the town long before its streets and corridors were thick with spies. The city's history of racial and gender discrimination is increasingly relevant to 21st Century struggles for equality. Exploring 70 sites, Spies, Bombs, and Beyond walks readers through the neighborhood, connecting the local to the global and the past to the present. Mark Fitzpatrick examines how diplomacy works and how espionage (sometimes) fails by exploring nearby embassies and the residences of ambassadors and traitors. Consider John F. Kennedy's 1963 American University commencement speech presaging the current push for a comprehensive end to nuclear testing - even today, the residue of chemical weapons disposed near the campus stands as a powerful testament to the need to ban such weapons.

The author of the popular blog "The Streets of Washington" shares new vignettes and reader favorites exploring the colorful history of America's capitol. In Lost Washington, D.C., John DeFerrari investigates the bygone institutions and local haunts of the nineteenth and twentieth centuries. Washington may seem eternal and unchanging with its grand avenues and stately monuments, but longtime locals and earlier generations knew a very different place. Discover the Washington of lavish window displays at Woodies, supper at the grand Raleigh Hotel and a Friday night game at Griffith Stadium. From the raucous age of burlesque at the Gayety Theater and the once bustling Center Market to the mystery of Suter's Tavern and the disappearance of the Key mansion in Georgetown, DeFerrari recalls the lost city of yesteryear.

A former CIA officer and the creator of the hit TV series The Americans makes the case that America's policy towards Russia is failing--and we'll never fix it until we rethink our relationship. Coming of age in America in the 1970s and 80s, Joe Weisberg was a Cold Warrior. After briefly studying Russian in Leningrad, he joined the CIA in 1990--just in time to watch the Soviet Union collapse. But less than a decade after the first Cold War ended, a new one broke out. Russia changed in many of the ways that America hoped it might--more capitalist, more religious, more open to Western ideas. But US sanctions have crippled Russia's economy; and Russia's interventions have exacerbated political problems in America. The old paradigm--America, the free capitalist good guys, fighting Russia, the repressive communist bad guys--simply doesn't apply anymore. But we've continued to act as if it does. In this bold and controversial book, Joe Weisberg interrogates these assumptions, asking hard questions about American policy and attempting to understand what Russia truly wants. Russia Upside Down makes the case against the new Cold War. It suggests that we are fighting an enemy with whom we have few if any serious conflicts of interest. It argues that we are fighting with ineffective and dangerous tools. And most of all, it aims to demonstrate that our approach is not working. With our own political system in peril and continually buffeted by Russian attacks, we need a new framework, urgently. Russia Upside Down shows the stakes and begins to lay out that new plan, at a time when it is badly needed.
