The Nurse as Wounded Healer Theory (NWHT) was developed by Dr. Marion Conti-O'Hare in her 2002 book *The Nurse as Wounded Healer: From Trauma to Transcendence*. In her book, Dr. Conti-O'Hare draws on her decades of experience as a registered nurse in the psychiatric setting to argue that nurses can only effectively heal others if they first heal themselves.

Wounded healers in multiple fields The concept of wounded healers has been expanded to apply not just to psychotherapists but also other forms of healers, including physicians and nurses.

~~What is... a Wounded Healer—Mental Health @ Home~~

Under the premises of the theory of the nurse as wounded healer, each such nurse must first recognize and transform his or her fear and pain in order to transcend and continue along the path to become a wounded healer (Conti-O'Hare, 2002) (See Table 1). These three steps of recognition, transformation, and transcendence are delineated below.

~~Lateral Violence in Nursing and the Theory of the Nurse as ...~~

Nurse Healer is defined as a nurse who assist the patients to stay in a state of homeostasis (human body in a state of physical and psychological balance). Dossey and others have observed that “nurses as healers” use their own energies and interpersonal caring to facilitate growth and the process toward wholeness of body, mind and spirit, as well as assist people in recovery from illness or in the transition to death”.

~~The Wounded Healer Quotes by Henri J.M. Nouwen~~

The healer archetype has been around for so long that it has developed some sub-archetypes that can help you in your exploration of this archetype and some of those include the Intuitive Healer, the Wounded Healer, the Caregiver, the Nurse and the Therapist.

~~Understanding the Healer Archetype—Thresholds~~

A working model of the theory is applied to the experience of LV in nursing to demonstrate the nurse's path from being the 'walking wounded' to becoming a 'wounded healer.' Implications of this theory for promoting the process of healing and creating an environment that disempowers violence are presented; an example is provided.

~~Lateral Violence in Nursing and the Theory of the Nurse as ...~~

Created by Conti-O'Hare, the Theory of the Nurse as a Wounded Healer states that a nurse's experience with lateral violence can either transform him or her into an advocate of bullying or a perpetrator of lateral violence. The result of lateral violence, most often pain and fear, can be carried throughout one's life.
