"A most important and invaluable work. Bro. Mackey is the best Masonic scholar of his age, and a fine writer." -Masonic Voice Review "We can confidently say it is the best authority on Masonic law, within the reach of the Craft generally; and such is the importance which we attach to it that we wish to see a copy of it placed in the hands of every Master of a Lodge in Michigan. By reference to it, various questions of practical importance, which are constantly arising in the business of subordinate bodies, can be correctly decided, and an uniformity of proceeding obtained, which is look for in vain now. This is what has long been wanted, and the only cause of surprise is, that a production like Bro. Mackey's, was

not laid before the Craft years ago. Although the work treats of the Principles of Masonic Law, yet it gives many minutiae which are of great value, especially to officers of Lodges. Among other things for instance, it details the mode of keeping the minutes of Communications, and the proper mode of balloting for candidates. The duties of officers, it defines with clearness and a force of reasoning which commends itself to the discriminating mind.....Apart from any recommendation on our part, the high reputation of the author should be enough to inspire confidence in his statements and opinions. His scholastic acquirements and his long and ardent study of Masonry rendered him preeminently fitted to impart light on the principles and usages of our Order. Faithfully has he performed his labor. Its result, we hope soon to see, the

This treatise on the Constitutional Laws, Usages and Landmarks of Freemasonry" is doubtless one of the most important and invaluable works in a Freemasonic library. This book was carefully put together, and is not a scan of the original. In presenting to the fraternity a work on the Principles of Masonic Law, it is due to those for whom it is intended, that something should be said of the design with which it has been written, and of the plan on which it has been composed. It is not pretended to present to the craft an encyclopedia of jurisprudence, in which every question that can possibly arise, in the transactions of a Lodge, is decided with an especial reference to its particular circumstances. Were the

accomplishment of such an herculean task possible, except after years of intense and unremitting labor, the unwieldy size of the book produced, and the heterogeneous nature of its contents, so far from inviting, would rather tend to distract attention, and the object of communicating a knowledge of the Principles of Masonic Law, would be lost in the tedious collation of precedents, arranged without scientific system, and enunciated without explanation. When I first contemplated the composition of a work on this subject, a distinguished friend and Brother, whose opinion I much respect, and with whose advice I am always anxious to comply, unless for the most satisfactory reasons, suggested the expediency of collecting the decisions of all Grand Masters, Grand Lodges, and other masonic authorities upon every subject of Masonic

But a brief examination of this method, led me to perceive that I would be thus

constructing simply a digest of decrees, many of which would probably be the results of inexperience, of prejudice, or of erroneous views of the Masonic system, and from which the authors themselves have, in repeated instances, subsequently receded-for Grand Masters and Grand Lodges, although entitled to great respect, are not infallible-and I could not, conscientiously, have consented to assist, without any qualifying remark, in the extension and perpetuation of edicts and opinions, which, however high the authority from which they emanated, I did not believe to be in accordance with the principles of Masonic jurisprudence. Another inconvenience which would have attended the adoption of such a method is, that the decisions of different Grand Lodges and Grand Masters are sometimes entirely contradictory on the same

points of Masonic Law. The decree of one jurisdiction, on any particular question, will often be found at variance with that of another, while a third will differ from both. The consultor of a work, embracing within its pages such distracting judgments, unexplained by commentary, would be in doubt as to which decision he should adopt, so that coming to the inspection with the desire of solving a legal question, he would be constrained to close the volume, in utter despair of extracting truth or information from so confused a mass of contradictions. This plan I therefore at once abandoned. But knowing that the jurisprudence of Masonry is founded, like all legal science, on abstract principles, which govern and control its entire system, I deemed it to be a better course to present these principles to my readers in an elementary and

methodical treatise, and to develop from them those necessary deductions which reason and common sense would justify. Hence it is that I have presumed to call this work "The Principles of Masonic Law." It is not a code of enactments, nor a collection of statutes, nor yet a digest of opinions; but simply an elementary treatise, intended to enable every one who consults it, with competent judgment, and ordinary intelligence, to trace for himself the bearings of the law upon any question which he seeks to investigate, and to form, for himself, a correct opinion upon the merits of any particular case.
