A perspective on the public sector that presents a concise and comprehensive analysis of exactly what it is and how it operates. Governments in any society deliver a large number of services and goods to their populations. To get the job done, they need public management in order to steer resources – employees, money and laws – into policy outputs and outcomes. In well-ordered societies the teams who work for the state work under a rule-of-law framework, known as public administration. This book covers the key issues of: the principal-agent framework and the public sector public principals and their agents the economic reasons of government public organization, incentives and rationality in government the essence of public administration: legality and the rule of law public policy criteria: the Cambridge and Chicago positions public teams and private teams public firms public insurance public management policy Public Administration & Public Management is essential reading for those with professional and research interests in public administration and public management.

In most countries, parliament has the constitutional mandate to both oversee and hold government to account. In light of the increased focus on good governance, academics and legislative strengthening practitioners are re-examining parliament's oversight function with a view to increasing public financial accountability, curbing corruption, and contributing to poverty reduction. This volume brings together research from many different perspectives and many different legislative settings worldwide. As the country case studies in section III demonstrate, the accountability mechanisms or oversight tools available to the legislature vary based on constitutionally defined powers of the legislature, institutional arrangements between the branches of government, divisions of authority between national, regional, and local governments, the degree of legitimacy conferred on the legislature, and the resources available to it. The budget process provides critical opportunities. Section II of this volume is devoted to examining budget oversight from the formulation and approval of the budget, to implementation and the ex post examination of the public accounts. Special attention is also paid to mechanisms to assist parliaments such as Public Accounts Committees and independent parliamentary budget offices. This title will be of interest to parliamentarians and parliamentary staff, legislative strengthening practitioners, and students of legislative development.

Those working within the field of applied behavior analysis (ABA) encounter potential ethical dilemmas on a daily basis. While some challenges can be anticipated and appropriately addressed before they become unmanageable, oftentimes behavior analysts are confronted with unforeseen and novel situations that require immediate, yet careful attention. It is impossible to anticipate and plan for every eventuality. A Workbook of Ethical Case Scenarios in Applied Behavior Analysis, Second Edition, presents more than 120 real-world case scenarios commonly faced by individuals practicing ABA. The examples range in difficulty and severity to address the unique challenges and needs of those teaching, practicing, or learning ABA through ethics-focused coursework or preparing for the Behavior Analyst Certification Board® (BACB®) certification exam. In addition to case scenarios, the workbook provides detailed questions to facilitate discussion and

critical thinking, offers suggestions related to the navigation of ethically precarious situations, and includes recommendations of ethics codes to consider in relation to each presented scenario. • Offers case scenarios addressing codes within the BACB®'s Ethics Code for Behavior Analysts • Presents detailed question prompts to facilitate discussion and critical thinking • Includes recommendations of ethics codes to consider and review in relation to each presented scenario • Offers suggestions on the navigation of ethical challenges • Discusses how to assess risk and devise ethically appropriate courses of action • Provides the entirety of the BACB® ethics code for quick access and reference

This collection of thirty-six classic short stories from the fifties to the eighties features works by authors such as James Baldwin, Barry Hannah, Bernard Malamud, Flannery O'Connor, Philip Roth, Anne Beattie, and Tobias Wolff

This early work by Ring Lardner was originally published in 1925 and we are now republishing it with a brand new introduction. 'Haircut' is a dark satire about moral blindness. Ring Lardner was born in Niles, Michigan in 1885. He studied engineering at the Armour Institute of Technology in Chicago, but did not complete his first semester. In 1907, Lardner obtained his first job as journalist with the South Bend Times. Six years later, he published his first successful book, You Know Me Al, an epistolary novel written in the form of letters by 'Jack Keefe', a bush-league baseball player, to a friend back home. A huge hit, the book earned the appreciation of Virginia Woolf and others. Lardner went on to write such well-known short stories as 'Haircut', 'Some Like Them Cold', 'The Golden Honeymoon', 'Alibi Ike', and 'A Day with Conrad Green'.
